WHO WE ARE

About TFSL

Tank Fuel Services Limited (TFSL) is a Sold, Furnished and Installed (SFI) diesel, tank & fuel products and services company serving both commercial and retail clients.

Our History

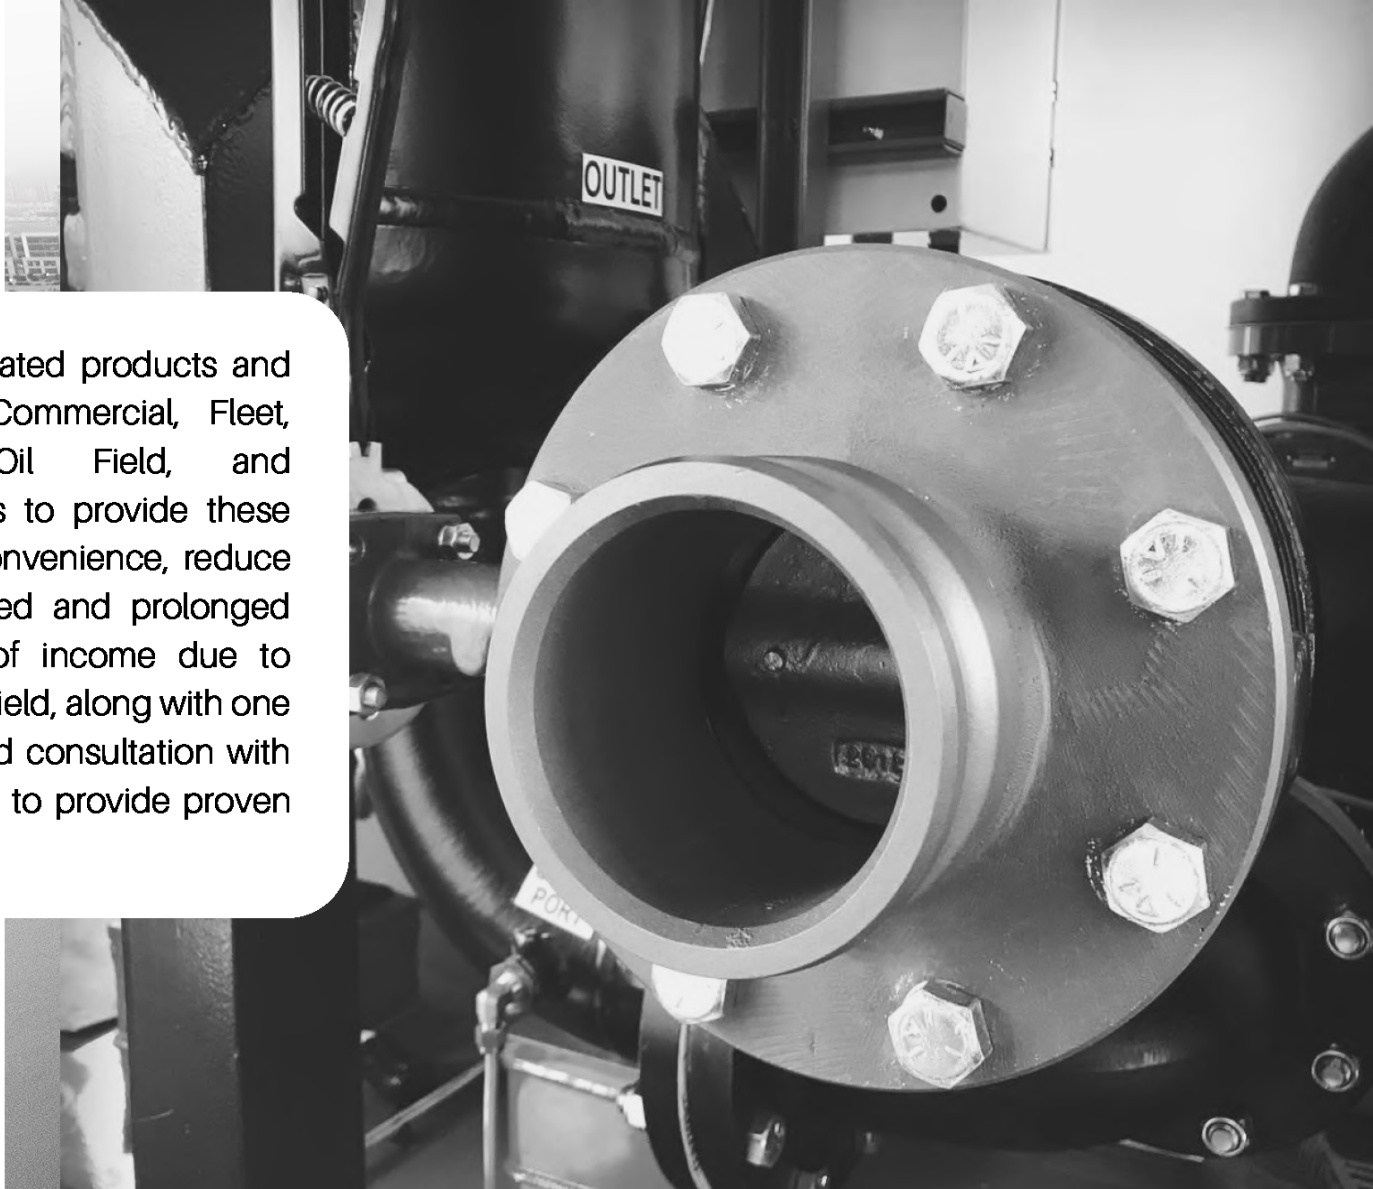

Formerly Trinidad Tank & Fuel Services Limited, we commenced operations in 2010, providing diesel tank cleaning and fuel polishing services for traveling "yachties", larger marine vessels and bunkering units servicing the oil field sector. Since then the company has expanded operations to meet the demands of additional sectors within the automotive, aviation, manufacturing, and telecommunications industries.

Our Vision

To be the preferred provider of fuel based products and services in the southern Caribbean, Guyana and Suriname. To continue the development of our relationships and strategic partnerships with our regional clients and our internationally recognized and certified manufacturers, in order to provide best in class products and services.

WHAT WE DO

TFSL provides best in class diesel fuel related products and services to the Automotive, Aviation, Commercial, Fleet, Industrial, Manufacturing, Marine, Oil Field, and Telecommunications industries. Our job is to provide these businesses with solutions to minimize inconvenience, reduce expenses by mitigating against unexpected and prolonged downtimes, and most importantly, loss of income due to contaminated diesel fuel. Experience in the field, along with one on one interactions with our customers and consultation with our manufacturers and suppliers, allows us to provide proven solutions.

THE SERVICES WE PROVIDE

- AST & UST Fuel tank supply & installation
- Custom tank fabrication, rehabilitation and restoration
- Diesel fuel filtration and polishing
- Diesel tank cleaning and waste disposal
- Diesel tank inspection and certification
- Fuel management system integration

THE BRANDS WE REPRESENT

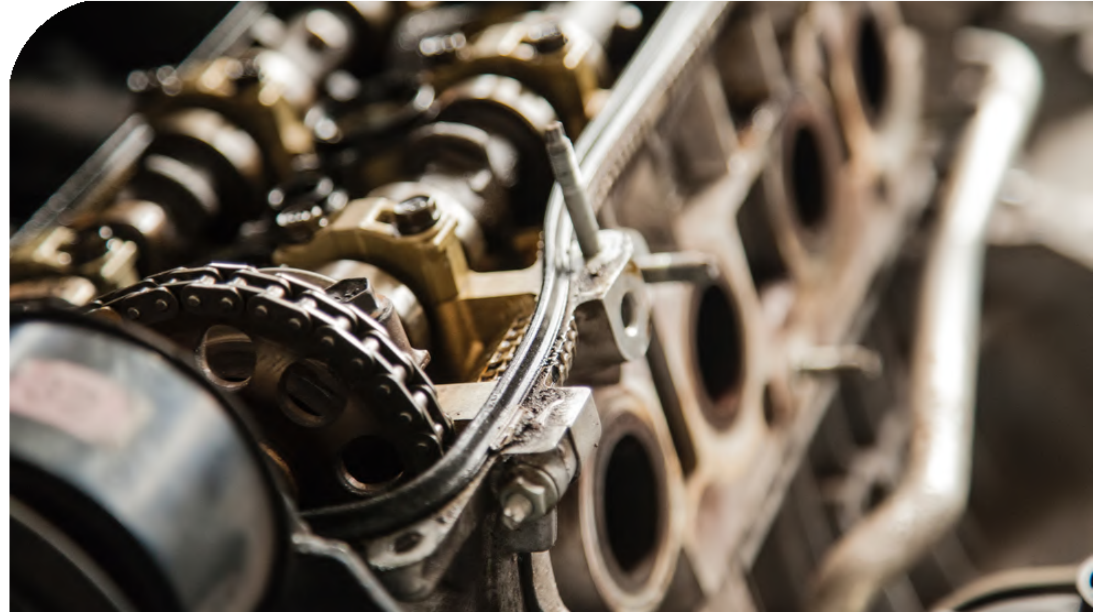

AXI International, an industry leader in Intelligent Fuel Management™ solutions for mission critical standby power, specializes in fuel maintenance, fuel polishing, fuel remediation, fuel treatment, and emission control technologies.

Complete fuel accountability is in the palm of your hand. FluidSecure has introduced cutting edge innovation to the world of fuel and fluid management solutions by developing revolutionary, easy to install hardware and a user-friendly cloud based app that allows you instant access to your fuel or fluid inventory, all for a fraction of the cost of traditional systems. Accurate Real-Time Reconciliation allows you to track every drop of your fuel or fluid inventory from delivery to usage and can save you money by preventing theft and losses.

Formula 88 is the original, highly effective, multi-purpose degreaser, cleaner, rust stain remover that cleans, degreases and deodorizes using environment-friendly, bio-degradable, non-flammable, non-hazardous and non-corrosive chemicals safe enough to use in your home, yet strong enough to clean your office, auto-shop, car engine and boat.

FuelMedic

Fuel Medic provides measurable benefits in fuel treatment and preventive maintenance. It protects and lengthen the service life of lawn mowers, trucks, cars, boats, motorcycles, tractors, construction equipment, generators and any diesel or gasoline, powered engines.

Modern Welding Company is the largest underground and aboveground steel tank manufacturer in the United States. Modern's steel products include ASME pressure vessels, petroleum and chemical storage tanks, water and grease filtration systems, structural steel, mine support arches, and custom steel plate fabrication. This AISC Certified Fabricator comes with over 85 Years of Structural Fabrication Experience.

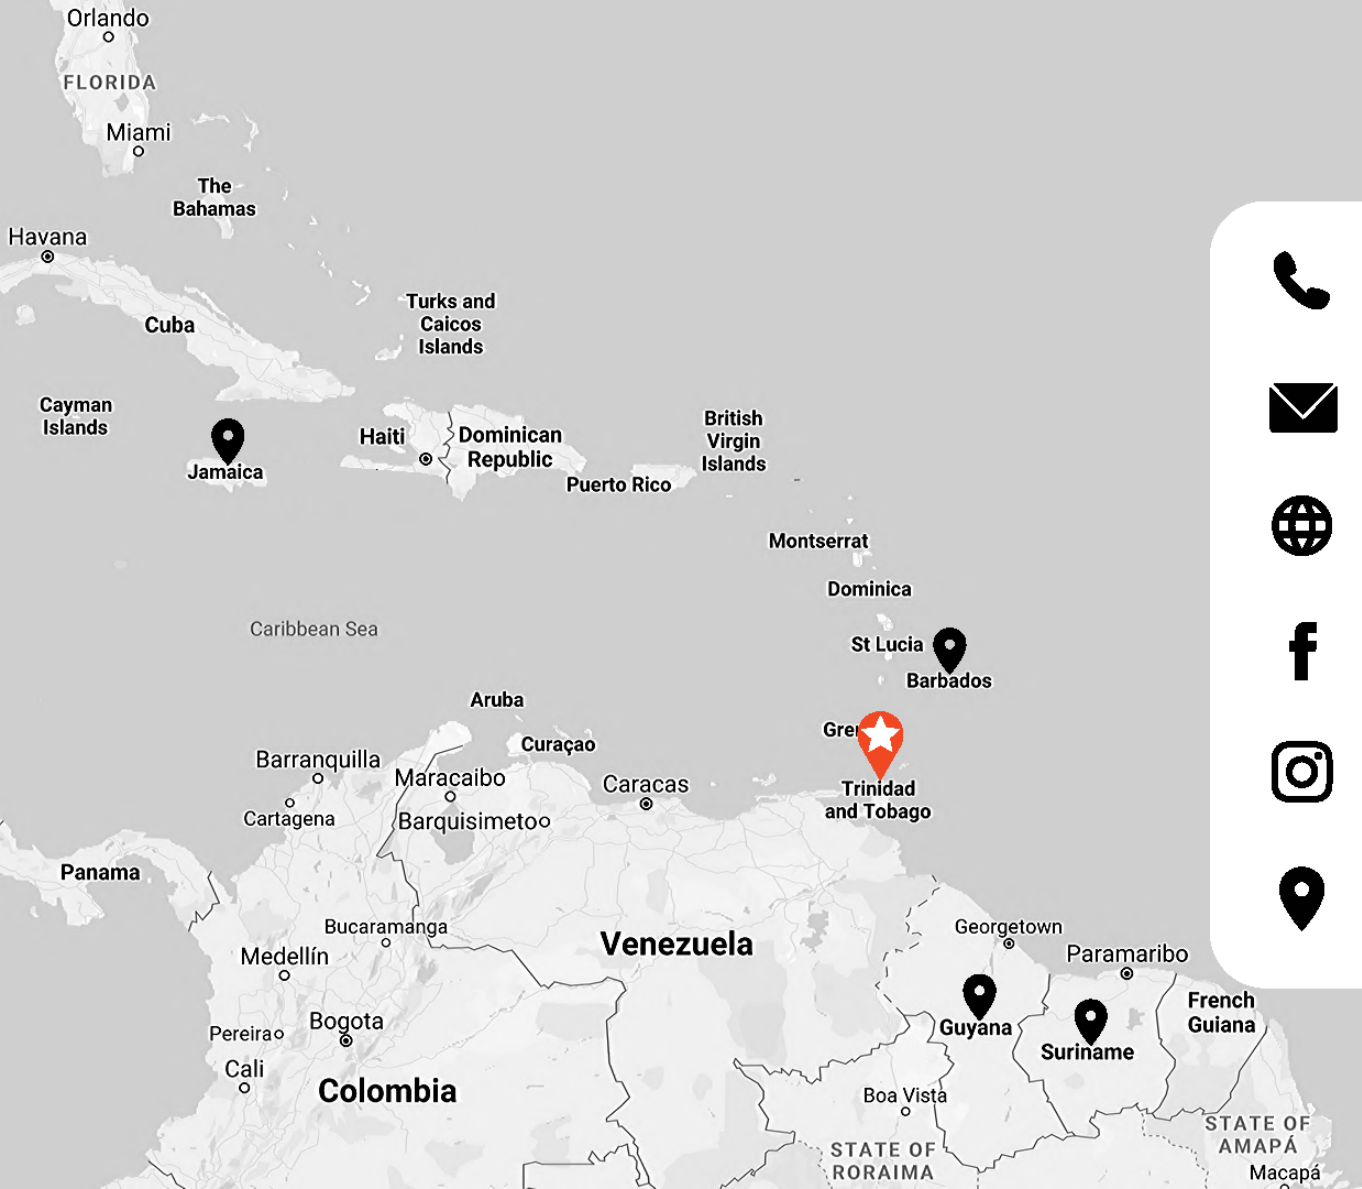

TECALEMIT, is a world leader in the professional delivery, filling, transfer and measurement of diesel, oil and grease. They are the premium manufacturer and supplier of fluid, fuel and oil transfer pumps; fluid and oil management; level control systems; diesel dispensing stations; dispensing and storage equipment; hand pumps and electric pumps. Their equipment is rugged, reliable, easy to use and cost effective.
